

THE ART OF DESIGN

JILL LIFSEY OF DISTRICT DESIGNS TRANSFORMS AN EMPTY PENTHOUSE INTO A MASTERPIECE

Less than a year ago, this 6,300-square-foot penthouse on Clearwater Beach was no more than an empty shell with the Gulf of Mexico as a stunning backdrop. Starting from scratch, District Designs installed custom cabinetry throughout the penthouse, including impressive built-in wall units for the grand salon and dining rooms. The full-service design team used original elements, which include a rotating round bed for the master bedroom, exclusive draperies and chandeliers made with Swarovski crystals that hang from above. Modern glass tiles were used to create a breathtaking backsplash for the kitchen and a custom woven 18x18 rug warms up the grand salon.

With 10 years of experience in the field, Jill has developed a strong network of vendors and sources to achieve a custom look for her clients. "While I specialize in modern glamour, we at District Designs can create any look imaginable," says Jill. "I take the time to get to know my clients and research the products that will best suit their lifestyle."

District Designs is a full-service design firm that goes the extra step. "The goal of District Designs is to create a home that's unique to each individual client," says Jill.
